**More information about the Norwegian organizations involved**

**UNGDOM & FRITID**

Ungdom & Fritid is a democratic children and youth organization. We work for users, staff and youth volunteers in over 600 Youth Clubs.

The organization was founded in 1978 and has as main goal that all children and youth should have access to good meeting places. Our members are about 2,500 employees and over 50 000 users.

We are an organization that promotes youth clubs interests both locally and nationally. We work to influence youth policy, to increase the competency within youth work, to promote more research on youth work, to facilitate closer collaboration and networking within the sector, and to continuously improve the quality and services of youth clubs. In addition, we are in charge of a support scheme in which the youth clubs can apply for money for projects etc.

A core value for Ungdom & Fritid is that that all children and youth should have equal access to a good childhood environment, regardless of their gender, age, religion, ethnicity, and social backgrounds. Therefore, everyone should have access to leisure time activities and safe meeting places that are free of charge, inclusive and that promote their personal skills.

A second important value is that children and youth have a right to participation, in line with the UN Convention on the Rights of the Child. Therefore, youth participation is emphasised in our organisation and in youth clubs.
